As usual, the ever popular actor is as usual, the ever popular actor is excellent, although there harbors about him the inclinations to his former roles as parish priest, but there seems to be the makings of a taking play in his new vehicle. With the addition of a trifle more life in spots the play will be benefited materially and this will no doubt come with a few more rehears-als. Mary Cagwim, Laura Franchfeld and Elicen Cosgriff were good in their roles, while Carl Fleming, Adolph Mee-garden, W. A. Pealock and W. J. Nelson gave good support.

Now that the season is near when coughs and colds will again be prevalent, it is well to consider the need of employing a remedy that will not disturb the stemach nor affect the general system, even if taken in frequent doses. Every grandmother knows the efficacy of horehound grown in country gardens for use when colds prevail. She also knows that there is no better soothing, healing remedy for an irritated throat than pure honey, and that tar is an antiseptic and protects the lining of the throat from any putrafaction organisms. These three old-fashioned articles have been so carefully compounded for many years that while Hale's Honey of Horehound and Tar is the simple remedy indicated by its name, it contains the curative qualities most needed for relieving coughs and colds.

The fact that it has been used for generations by families the country over proves its remained to the taste. The children like it.
